Sam Rainer

My name is Sam Rainer, I am a 29-year-old graduate student at the University of Arizona studying Art History with a minor in Italian. I am married and have five furry babies that I enjoy snuggling while reading, crafting, and drawing. I don't really stick to one style or category for drawing, sometimes I draw in my own style or, when I am having a block, I love to mimic artists with unique styles like Mike Mignola as a way to research. HAVE FUN COLORING <3

Ryan Hill

As a queer artist, I am invested in how our imagination explores truths outside of societal norms. I do this by drawing and recombining found images through a free-associative logic. Giving new meaning to images is pleasurable because it erases its original use of enforcing social constructs. I am interested in places that hold dominant culture loosely, like junk shops, circus side shows, flea markets and, sometimes, art museums. These are places of discovery and emancipated thinking, inspiring us to embrace uncertainty and find a beauty that feels free of fascism.
